## PROFILE

I'm a front-end developer, able to code web pages/ applications from the ground up using HTML, CSS and JavaScript and frameworks such as React.JS and Next.JS. Along with a working proficiency of the Git version control, API implementations and another technologies like Firebase, MongoDB and PlanetScale.

Fundamental understanding of mobile first design concepts, cross browser development and search engine optimization (SEO).

## WORK EXPERIENCE

### Freelance Web Developer

Independent Freelancer 2021 - Present

- Currently building a web application for inventory and payment management with Next.JS, TailwindCSS, PlanetScale and Socket.IO.
- Responsible for designing, building and maintaining an application made with React.JS, SASS, Tailwind, and MySQL for the management of students information at Universidad Del Valle.
- Used React.JS, Tailwind and Firebase to develop a web application for inventory management.
- Created static sites using HTML, SASS, JavaScript for a gym and a clothes store.
- Designed and built a To-Do application with Next.JS, Tailwind, Drag and Drop and Firebase.
